Installing A Hadoop Cluster (1)

- **Cluster installation is usually performed by a system administrator**
  - Out of the scope of this course
  - Covered in *Cloudera Administrator Training for Apache Hadoop*

- **Developers should understand how the components of a Hadoop cluster work together**

- **Developers typically use Hadoop in *pseudo-distributed mode***
  - A single-machine "cluster"
  - All Hadoop daemons run on the same machine
  - Useful for testing
